

The Washington Wine Industry Foundation (Foundation) has a shared vision: a thriving Washington wine industry.

Our distinct role in helping make that vision a reality is in facilitating funding and bringing together partners to craft sustainable solutions to our industry's toughest challenges.

The Foundation is unique. As a 501(c)(3), we are able to build, steward, and distribute funding for the industry in ways others cannot. We have been awarded nearly \$3,000,000 in federal and state grants to address industry challenges; distributed over \$225,000 in scholarships; and helped fund programs and projects including the WSU Teaching Vineyard and the AgForestry Leadership Program "grape seat". We take this responsibility seriously, and so *commitment, stewardship, and sustainability* are our highest values.

The challenges that stand in the way of our vision for a thriving industry are too big for any one organization, which is why building relationships, making connections, creating partnerships, and facilitating collaboration is central to all we do.

Our **Annual Partner Program** offers wine industry leaders the opportunity to become partners in our work. Through your meaningful, annual financial investment in the Foundation, you affirm your commitment to the future of Washington wine, with valuable benefits in return.

Contact Julie Brezicha to discuss how you'd like to partner!

julie@washingtonwinefoundation.org or 509.782.1108.

Thank you!
