

SCHOLARSHIPS

FOUNDATION FUND SCHOLARSHIP

The Foundation Fund was endowed in June 2013 by the Board of Directors. Several family funds, including the Charles Lill, Michael Manz, Glenn Coogan and John Farmer funds, plus the Industry Need and Rainy Day Funds, were combined to create the initial endowment. With this larger endowed fund, WWIF can make a bigger impact on the industry's need for an educated workforce. Individual gifts and dedicated auction revenues continue to grow the endowment. The number of awards is determined annually, ranging from \$2,000 to \$10,000.

WALTER J. CLORE SCHOLARSHIP

The Walter J. Clore Scholarship was established in 1997 by the Washington Winegrowers Association in honor of Dr. Clore's grape research. Working with growers, Dr. Clore and his colleagues published information on grape varieties, diseases, insects, mineral nutrition, irrigation, cover crops, weed control and climatological effects, including winter injury. He tested various trellis designs, which eventually led to the widespread adoption of mechanical harvesting. Each year, Winegrowers members raise the funds for this scholarship at their annual convention. The number of awards is determined annually and scholarships start at \$1,000.

HORSE HEAVEN HILLS SCHOLARSHIP

The Horse Heaven Hills Wine Growers offer up to two \$3,000 scholarships with preference given to students who are residents of Benton, Klickitat or Yakima counties and interested in the study of viticulture and/or enology. Preference will be given to students with a parent employed in the Washington wine industry. The scholarship was established by members of the group who are dedicated to promoting education of the grape growing and wine producing industry in Washington.

GEORGE & SUSAN CARTER SCHOLARSHIP

The George & Susan Carter Scholarship was established in 2017 as an endowed fund in honor of WSU researcher and winemaker George Carter and his wife, Susan. George Carter worked side by side with Dr. Walter Clore and the two were close friends. As part of his day-to-day activities, Carter developed a system for classifying American, European and hybrid grape varieties. In recognition of his wine making accomplishments, Carter was elevated to a Supreme Knight in the International Brotherhood of the Knights of the Vine. This scholarship was established to assist students of limited means to attain associates, bachelors and graduate level degrees in viticulture and enology and will offer one (1) \$1,000 auto-renewing scholarship per year.
